Evidentiary Table of Contents

- A.) Threats of killing from the father
- B.) Father's Personality
- C.) Police bribes with money to criminally endanger child
- D.) Efforts by police to keep hush hush about the abuse conspiracy/ child endangerment:
- E.) Inappropriate living conditions/ mental disease:
- F.) Reports of child pornography, rape, child prostitution.
- G.) Concerns of Confraternity in Peru Illinois, an illegal government
- H.) Corroborating witness statements
- I.) Attempted murder/ homicide, premeditated plots to kill/ Conspiracy/ Confraternal organization
- J.) Gun threats due to mental illness (other) in LaSalle County
- K.) Neglect to schedule a case transfer (Fraudulent Services) & Immunity waived by DCFS and other authorities
- L.) Concern of ill mental health from local police and a historical standing of long-term abuse from them
- M.) Efforts to tamper with a material witness
- N.) Case must be transferred. Do Not call to talk to LaSalle county authorities because they can't be relied on. Don't pawn any investigation off on them
- O.) The F.B.I. was made aware and refused to help. (potential fraud/conspiracy)
- P.) Information on how I might be considered more of an expert witness than others in the realm of child psychology
- Q.) Evidence from other witnesses about abuse from father to child
- R.) Child in immediate grave danger/ fear to child's safety (life)
- S.) In dire need of legal services in the form of representation for legal trials set forth in the near future
- T.) Slander/ fraud/ attempts to fabricate information to allow criminal child endangerment, death or severe disfigurement or impairment to a minor
- U.) Felonious slander to harm child
- V.) Unclear details, surrounding conspiracy, hidden information (not safe to conduct an investigation or rely on its findings)
- W.) Allow me to correspond and provide evidence
- X.) (15-F-153 docket sheet.pdf)
- Y.) (10-05-2016) OP Hearing and surrounding information
- Z.) Proper testing and mental evaluations

A.) Threats of killing from the father

It has been a concern for a while now that a child has been being raped. To what extreme condition this is in, I am unaware of. This is just what has been reported to me. A long time ago, around 2017, a little girl, Madeline Kramer, was alleged to have been taken inappropriately by DCFS and placed in a place where extreme pain and suffering was known to take place. No efforts were ever made by them to keep her away from this and it was listed in several of their DCFS reports how the father and people there were an extreme source of abuse and harm. Kevin threatened to kill me and the child which is documented in court transcript and police record.

B.) Father's Personality

Kevin is somewhat of a Rockstar musician with a drug addict mentality, or starving artist so to say. He routinely abuses drugs which cause him to act out psychotically with extremely unreasonable behaviors. Once he said his mom was telling him to abuse the poor child and would belittle him if he was not going to get in on the abuse. Kevin says he was abused since he was young. I've often thought why he would allow abuse to his little girl is to get his mom's focus off him for a little while. He is an only child and still suffers tremendously-psychologically. I believe his mental disease will continue deteriorating or rotting his brain even more over time.

He already has a hard-enough time walking let alone doing much else because of it. His mom told me he needed psychological services all throughout his youth but never got any and has been self-medicating through drugs and music to create a sort of alternate reality to escape whatever he isn't dealing with or is bothering him.

Genetic forms of schizophrenia stem from DNA Chromosomes which are defected and don't allow proper function of correlating organs, such as with brain abnormalities caused by deformed cellular structures. There is nothing fancy about this and it can deteriorate just as any other diseased organ would, over time, causing organ failure or as some say paralytic or catatonic schizophrenia.

Although all of this, they still went out of their way to have her placed where they even threatened to kill her and murder me on several occasions. The father also made mention to me that he was going to kill himself because he was going through the court proceedings for his mom, not because he wanted to, but because she made him. She had ulterior motives though.

C.) Police bribes with money to criminally endanger child

During an investigation by Police last year, the Police officers testified during an open civil court trial while waiving any immunity they had, that they had conspired with the father's parents to have the child placed there while being under investigation to be a place of harm to her.

*** (Bribery/Conspiracy)** They alleged that they gave the father's parents an amount of money for some reason or another right during the middle of them being under investigation for abusing the small child. This went way against the normal course of procedures and business.

- (Note) I was going to list more of what specific charges but decided to just leave that to the prosecutor.

D.) Efforts by police to keep hush hush about the abuse conspiracy/ child endangerment:

Recently, while the child went to school at Northwest Preschool in LaSalle IL, rumor was of how if the teachers or any one saw anything or reported any concerns of abuse to her that the police wouldn't follow up with any type of investigation in efforts to delay ensuring the protection of health and wellness of the minor child. While she very well still may be murdered to this day, I am not sure but she does need someone to speak with her to make sure she's alright. She should not be in this place all summer and is in need of emergency counseling services as there is increased risk of abuse. Pedophiles can't help themselves and there is no one to look out for her who have her best interests or who is mentally capable.

E.) Inappropriate living conditions/ mental disease:

The father, who commonly lives in attics and inadequate shelter, routinely doesn't provide heating or air conditioning for the child, despite my offers to pay. He routinely tortures himself like this, but with the dreadful heat, I know it is unsafe for my daughter to be with someone so mentally ill to think that it is safe for a child live in a house where there is no air conditioning, maybe only a fan, when it is scorching hot out. This can cause hypo glycemia and other health related problems for a growing child.

This is no way for a child to live when she could have otherwise. She is in a home where everyone there are schizophrenics, some of more severe forms than others, like catatonic schizophrenia due to mental deterioration. The child looks terrible compared to where she was a few years ago. They have been known to leave her systematically with people who abuse her, for financial support.

F.) Reports of child pornography, rape, child prostitution.

There was an investigator from Chicago that informed me she was subject to child pornography online and light forms of prostitution. The child is only five. Although the investigator told me this after spying on the father I just couldn't afford the payment to proceed with the larger amounts of perhaps prosecution. He said the abuse and evidence surrounding such as death threats are much worse than they appear.

Again, DCFS took her away and wanted this for her. Police conspired against their duty to cause this to happen to her and without anyone there to intervene or help. If these people would do their jobs how they were supposed to do them, people would not have to go out of their way to afford high costing professionals to do their job for them. I have a significant amount of evidence about everything from A-Z, start to finish. I have essentially the whole case file ready immediately for anyone to look at who can help. As far as compensation is concerned, we would have to figure out a way to make something work.

G.) Threats of killing from the father:

I went for a long time being abused by the police in other forms of material abuse and hostility. They commonly abuse people beyond any reasonable capacity and without sound mind. There are several complaints and lawsuits against them filed already. I know this may seem weird, but the LaSalle county authorities have been under investigation quite some time for being a small terrorist cult, or what some may call a confraternal organized government, going against normal American government.

Brian town had the safe team. He was the ex-states attorney and had his own little government formed which didn't follow the laws of American government. They removed cars, people, searched and seized anything they would like for cash profit, and would later sell it. Many cases have been taken against them by several people.

H.) Corroborating witness statements

Attorney Julie Ajster tells of how her husband died of stress related illnesses due to extreme abuse from local authorities, amongst other things. She also expressed to me that they killed her dog. She told me that there is a cult or confraternity locally which these members belong to and which goes against U.S. government. She tells that lots of information surrounding this is on the Edgar County Watchdogs website, but also told me she has a lot of evidence from investigations she's done on her own. Apparently there are several cases taken against the city and Chief of Police already where more corruption from them are causes for much concern.

Rodney Perez also expressed similar things to me. He has been an avid community aid in trying to create operations, charities, garden clubs, garbage clean up crews and a park district among other things. He is a fireman and city alderman and expresses nothing but abuse from these people all the time. He was the one who stemmed the Embezzlement investigation and forwarded it to the F.B.I. He states that the city was not accounting money and using it to pay off workers as hush money for other things. Apparently when the F.B.I. took the case, they mishandled the investigation and didn't specify that the Mayor, who was the one embezzling, was solely responsible.

Later on, the corrupt Mayor Harl, ran for mayor again despite it being against city code for any mayor guilty of embezzlement to run again for mayor. This is an avoidable fault which I believe the F.B.I. contributed to due to a lack of proper investigation. There is still a case on this where it clarifies that he was guilty of this crime. Rodney expresses that there is a lot of corruption inside the city such as the fire department where there is a lot of bias, abuse and bullying toward people who are just good, because apparently they aren't "bad" enough and are deemed a threat to the other criminals who would rather hire criminals to help them get away with their crimes. The abuse is sick and extreme. Rodney and Julie both get picked on for trying to be good community activists.

I.) Attempted murder/ homicide, premeditated plots to kill/ Conspiracy/ Confraternal organization

This has escalated into people telling me they were being hired by politicians and police locally to do away with me. I have the record of all of this. ***(Attempted Homicide)** A cult member told me they were planning to ritually sacrifice my daughter and I, and that they have plans for this out in the forest or something. He told me the descriptive story of how they perform this ritual of consuming the child's body parts. He tells me that he was in correlation with the police and was also hired to do away with me with police knowing of this and waiting on call for him to complete this.

J.) Gun threats due to mental illness (other) in LaSalle County

At times like when I was faced with a death threat by both of these gun men due to them being armed, having mental illness, one standing outside of my house, stalking me and the other sending people after me, the police refused to investigate and one instance officers told me their boss Douglas Bernabei told them to never respond to any call pertaining to me. Stephan Cullinan and Zachary Savitch both threatened to kill me and said they were hired but local authority and cult members to follow through with this despite their mental illnesses. Zach Savitch claims he is 100% demonically possessed, cannot control himself, has multiple personality disorder and desires to kill people. He told me he works for local authorities to take care of me. He has posted videos, pictures and songs about him being "Q. Territory" the master killer, guns, threats to murder people, being sick with mental illness, etc. Stephan Cullinan told me the same thing that there was money involved as an offer to him by a politician to kill me. His mom Julie Cullinan is apparently a part of the areas cult.

K.) Neglect to schedule a case transfer (Fraudulent Services) & Immunity waived by DCFS and other authorities

Still I could not get a case transfer like DCFS educator Sangita Rangala also believes I need and requested despite efforts to disallow this by local authorities including DCFS personal, who aren't forensically or trained child psychologists. Sangita is the DCFS person who educates on how to handle investigations and said that in a case like this it would have to be transferred to a proper county with the correct authority to handle investigating which LaSalle county did not have. Denise Flores from LaSalle county DCFS refused to allow help for the child though this although it would have been deemed proper procedure according to the state, police and DCFS protocol. To this day, no case transfer to an adequate and non-biased agency has been afforded at extremely costly lengths.

DCFS testified to all their conspiracies at trial and where records were entered in which they confirmed at trial on transcripts, this waiving their immunity rights and making the morally responsible for their crimes.

L.) Concern of ill mental health from local police and a historical standing of long-term abuse from them

It is believed that the chief of police has a severe mental condition and has been routinely taking out his psychopathic disorder on the community, hurting all kinds of people. We most definitely don't have what we need where a government is concerned. It is somewhat of an abusive wasteland around here where the focus is on more harm and cover up. They used to physically harass me at my house in attempts to get me to leave.

M.) Efforts to tamper with a material witness

My grandmother who also witnessed the abuse to my child, saw this and when she came forward with evidence for court, they tried to sabotage her physical wellness by serving her with hostility and aberrant behavior. This is most certainly not how any material witness should ever be treated. At one point in time during what was supposed to be an investigation by police, I was threatened and cornered while an officer was telling me to be quiet about the abuse otherwise alternatively they would be after me. LaSalle County States Attorney and assistant States Attorney are involved corruptly behind the scenes with these matters and were of no source of help, only allowing harmful things to continue. They are under investigation for crimes surrounding the illegal confraternity, so it would serve no purpose contacting them as I really don't think they can be relied on so it's no use talking to them.

N.) Case must be transferred. Do Not call to talk to LaSalle county authorities because they can't be relied on.

Trusting LaSalle county DCFS or officials to conduct or properly follow through conducting any type of investigation would be unreasonable because firstly they weren't the right agency due to resources to handle such investigations in the first place, so nothing can be expected to be accomplished with investigating unless a case transfer is ordered. Also, at this point they will nearly go to all lengths out of their way to hide or cover up what they did wrong and so will not ever order that case transfer therefore trying to talk to them anymore is overall useless as they are beyond unwilling to ever do their job and they never were in the first place. They are just taking the states money and doing quite the opposite of what is for actually.

O.) The F.B.I. was made aware and refused to help. (potential fraud/conspiracy)

* The F.B.I. was made aware of the concerns but were seemingly completely unwilling to help, telling me I would have to fund the investigation then provide them with evidence.

P.) Information on how I might be considered more of an expert witness than others in the realm of child

I studied child psychology and have collected evidence of some pretty extreme abuse symptoms from the child ranging from doctor's notes, specimens telling of how that father abused her, pictures of bruises, videos of confessions of her telling what abuse is happening, friends and other witness testimony and etc. amongst other things.

I currently have a house in Peru, IL that I own and am too busy drowning in legal documents and court papers to do much of anything else besides hope to get this stuff done and out of the way, so I can move on with my life. I started going to pre-law cursor type schools to help with my court case and documenting. I was working on it myself for a while and so figured why not get some credit for all the learning about law I was doing. I began studying paralegal online after attending McCormack college for paralegal and taking psychology classes for a while and received straights A's. I decided it would be beneficial to gain my legal research and writing degree with backgrounds in psychology to better help the legal realm. I ran a little preschool out of my home for a while which was also a part time day care for children. I have a lot of experience working with children and consider it a superpower of mine with my ability to make sure they turn out well. I am right for them, always have been. It's just my natural trait.

Q.) Evidence from other witnesses about abuse from father to child

I have had friends present while the child informed that daddy was pushing her all the way up in the swing, so she would fall out, and other stupid types of abuse like one time, letting her fall down into a basement window well right next to a steep 60 ft hill covered in broken glass. He is schizo so I think he is entertained by hurting the little girl. These are just some of the ways they would care for her and let be known to the public.

Witnesses are: Gordon Pearson, Alex Waters, Beverly Schnieder, Sara Scruggs, Bill Crossman, Jordan Ahmed

R.) Child in immediate grave danger/ fear to child's safety (life)

I'm afraid they will bash her head open on the cement or concrete and eat her brains out during a satanic ritual or something amongst other things. This is what cult member who was involved told me they were planning to do, use her and I both as a sacrifice how they might already have the graves dug for both of us.

I just really don't feel comfortable with the idea of my daughter risking getting pregnant by her dangerous and unprotective father. I am nowhere ready for that and would never feel comfortable with that dilemma. I have medical records showing abuse and harm to her which doctors even reported father for.

S.) In dire need of legal services in the form of representation for legal trials set forth in the near future

I really need temporary assistance at least and for someone to start rummaging through the file. It is too large, and I am sure I wouldn't be able to do this all on my own. Unfortunately, I am the child's mom and have done absolutely nothing wrong at all. I fear for her life ever since school got out. This is way too risky of a situation to not have a lawyer for so immediate assistance from you or someone you know who you think might better off be able to serve, would be greatly appreciated

T.) Slander/ fraud/ attempts to fabricate information to allow criminal child endangerment, death or severe

Also, there is a psychologist who was paid behind the scenes by DCFS to fabricate a report about me, and a false testimony offered by my mother who is extremely sick in the head and has been estranged from me for about over 10 years now. She will do anything to sabotage me and make me look bad. This is nothing but an extreme form of a bad relationship with my mother. Nothing out of the ordinary, just in the wrong place at the wrong time. She has committed an act of slander against me offering false witness testimony to try to counteract an investigation being done which would help my daughter. Other reliable witnesses say she is off her rocker and will do anything to harm me including this.

U.) Felonious slander to harm child

Also, Doug Bernabei colluded to stop investigations being done to help the child by forwarding letters of recommendation to DCFS asking them to not investigate or get Kevin in trouble without any good reason without ever meeting with me and without ever looking at my evidence, which I have a lot of. This was an act of slander.

V.) Unclear details, surrounding conspiracy, hidden information (not safe to conduct an investigation or rely on

I was just making you aware due to the fact that if you try to obtain records on your own, they will be counterfeit or in a large majority left out of hidden from the main record. I have already encountered this problem and through working with people in the past have obtained nearly as much of the pure documents that I was able to obtain. I don't believe that if you request a record copy on your own, it will give you any truthful details. Please contact me for more assistance and my version on how and why some of their documents are false and corrupted including records pertaining to psychologist and my mother especially. Please call or message me by e-mail, text or mail in order to obtain more documents or information for your knowledge. There are more conspiracies surrounding this like false testimonies offered, falsified police reports, and false charges and things portrayed about me constructed by police in effort to help them cover their crimes up and make me look criminalized. I'd like to have my mom disbarred from testifying as her testimonies are false, biased and are from untruth, jealousy, revenge, unnatural hatred and continuous historical attempts to slander me.

W.) Allow me to correspond and provide evidence

Please provide me with an address that I could send you some of my evidence at and what if any or all documents you want or would like me to send. I have court on the 7th of June. There is a continual open case regarding this in civil court in Ottawa IL which I really need a lawyer for. I haven't been able to find one since my last lawyer left due to him being corrupt behind the scenes. You can go ahead and file your appearance on the case. If I could have a lawyer for the status hearings set in the near future I would more than appreciate it so I can stop the search and move along.

X.) (15-F-153.pdf)

Please See (15-F-153.pdf) for further legal knowledge about cases surrounding.

Y.) (10-05-2016) OP Hearing and surrounding information

DCFS investigated several reports of abuse which showed there was abuse from father to child. Several witnesses reported this other than me. They mishandled all of their investigations and never did anything to help. They continuously refused to investigate properly although their data listed the father as the source of harm to the child. There came a point where I was hesitant to take the child to the doctor because DCFS was getting angry about doctors reporting abuse from father stemming from well child checks, when I would take the child for her bi yearly visit. DCFS was claiming that I was medically abusing the child even though these were mandatory, and I would be considered have abused her through neglect if I didn't follow through with the states procedures for early well child checks for children. There were no psychologists in the state to help a child who was emotionally injured and when I called Peoria pediatric hospital in search for a psychologist, they reported me to DCFS for refusing to bring her to the emergency room for a sexual abuse exam. An investigation was done on me for this.

DCFS educator Sangita Rangala, sexual abuse expert said the case needed to be transferred to a different country's DCFS with the proper faculties to handle sexual abuse investigations. There were two programs who could help with a transfer which had to be facilitated by Ottawa IL DCFS supervisor Denise Flores. When my lawyer Tim Kohn and I went to express this to her, she informed us that they were only recently trained on how to handle sexual abuse investigations, so they were never the right country to hear the matter. Denise refused to offer a case transfer and told me that I had to take my child to the doctor the next time I suspected that she was abused in order to obtain a doctor's note and she claimed that that is the only piece of evidence she would be willing to accept to do anything about the abuse. She said that then, we would protect the child from the abuse from her father after the doctor's visit.

Another incident of abuse occurred, and a doctor reported to DCFS there was signs of abuse from the father.

DCFS came to my house, took protective custody of the child and said they were placing her with dad.

I was informed that Denise Flores had called Jim Marmion and asked him if they could have permission to twist the report about dad to be on mom "claiming Munchausen" due to the amount of past reports (even though they showed abuse from dad and were mishandled due to how they did nothing to protect the child from it).

Jim Marmion allegedly approved this message and she was taken and placed with the father despite the original doctor report to DCFS being on the father. This was a huge cause for concern.

The next day, Denise Flores told me that If I did not sign my rights over to the father, that we would have to have a shelter care hearing. I opted for the hearing. An hour later I was informed by my other attorney at the time Jim Durkee, that DCFS was going to testify at an OP trial to try to get the father an OP against me.

Instead of following through with the proper procedures where a shelter care judge would hear the matter, a civil court judge heard the matter unjustly.

It was made aware that the proper venue was to be a shelter care hearing and I believe the case should have never been heard before the civil court.

DCFS testified how that if the matter was heard at a shelter care hearing that the child would be returned to mom. They falsified information, claiming all of her medical visits, including well child check and routine doctor's visits, were all sexual abuse exams, claiming I medically abused her. DCFS previously told me to take her to the doctors with my lawyer present, despite my request for counseling, a less invasive procedure through a case transfer.

Even though I took DCFS orders, they used it against me, fabricated information to make it look like I was harming the child, even though it was routinely the father who was. They followed no normal course of procedures.

Later during trial dates, DCFS workers testified that shortly after the meeting I had with Denise, where she told me to take the child to the doctors, that she met with the father's lawyer, Robert Steele and agreed to get the father custody through the use of an OP the next time the mother took the child to the doctors which is a HUGE act of conspiracy. They claimed that they needed the OP to conduct their investigation and then when it was complete, the matters got dragged out in civil court, as they still are. DCFS made no attempts to allow me and my daughter to have any kind of relationship at all. It has been over a year since I've seen my daughter's face. This is completely against the normal course of business procedures.

DCFS forwarded information to a medical records clerk, to have her write a medical report the way DCFS wanted it, with falsified information from their reports, in effort to make an excuse for why they took the child. Another report they used was a note from a doctor who corresponded with the father's attorney several days after they took the child. Both reports were made after DCFS took the child and were the only two evidence pieces DCFS provided as to why they took the child.

Since the evidence was created after the fact, and some fraudulent, they don't support why they took the child since they were created after the fact. The reports are false and unreliable.

DCFS Administrator from Springfield told me to have my lawyer have an emergency OP reversal hearing to have my witnesses who saw the abuse testify to the threat of harm to the child but my attorney never took her advice and let the case drag on and was corrupt behind the scenes. He told my me and my witnesses how he was having secret meetings with DCFS.

One of the alleged hitmen said that he worked for him and that he was hired to do away with me.

I would like to be in my daughter's life but the attempts from authorities in the area haven't allowed me the opportunity to provide for her as much as I would like or even see her for that matter.

Z.) Proper testing and mental evaluations

The following writing is a brief section from a letter draft I wrote, outlining the importance of mental tests like pupillary response and brain scans:

The American government needs to be more responsible to instill mental tests to evaluate criminal capacity.

Such tests are brain scans, chromosome tests, pupillary response tests to rule out schizophrenia and other impulse control loss. We must develop ways to ensure America provides these to State officials currently in office and furthermore, preferably prior to students graduating high school, around the age of 18, This helps to better prepare oneself with knowledge of where they struggle and prevent them from going in any line of business which requires them to control themselves such as If they lack impulse control or show unusual predispositions of accumulated mental tendencies. (Have these tests be facilitated at high school during one's younger years to prevent/steer course of one's life to avoid trauma or reharming. Keep notes of their test results.

Brain scans are reliable forms for showing any miswiring and likelihood of committing criminal acts, even with authority figures. Tests can help us make the best choice of person for office alongside other tests, and it can be compared with other's tests as evidence at evidentiary hearing and trials prior to hiring someone for office. It seems like now we are just promoting and hiring whoever without as much needed aforethought. This is a sure-fire way to help Americans see which person really would be best suited for any such job in the long haul, which can prevent a lot of hassle and remove a lot of needless worry. Scans can afford us to not overlook any concerns from someone, such as if their test proves they actually would act out in a way we otherwise might not normally believe and let someone get away with criminally. Tests can afford a lot of safety mechanisms which can help eradicate costly damage done from a person abusing a government positions.

People can act like terrorists and be inclined to terrorist or criminal behaviors. This can be easily shown through a brain scan. Overlooking this from the people in government and civilians can cost America it's life. This is too costly of a risk to take. We can prevent and keep tabs on where potential outrageous problems could be due to brain scans and pupillary response tests allowing us to understand when there is a likelihood to commit. This helps when we are told of corruption and some now may choose not to believe it, which ends up being a costly messy catastrophe to clean up when corruption runs rampant. Scans will allow to show one whose job it is to investigate such reports if the concern is of a more serious nature due to the test results. This can help allow one to decide when the best times to investigate are. This can help people not overlook concerns due to a badge or authority position that people can often times even hallucinate their way to, to behind with.
